

Microsoft® Office PowerPoint® 2007: Level 1 (Second Edition) One Day

Course Description

In today's work environment, presentations have moved far beyond flip charts and overhead projectors. Audiences not only expect that your presentations are in an electronic format, but they also demand that your presentations be unique and sophisticated in their use of such formats. In this course, you will work with Microsoft® Office PowerPoint® 2007 to create electronic presentations.

Course Objective: You will explore the PowerPoint environment and create a new presentation. You will format text on slides to enhance clarity. In order to enhance the visual appeal, you will add graphical objects to a presentation and modify them. You will also add tables and charts to a presentation to present data in a structured form. You will then finalize a presentation to deliver it.

Target Student: This course is designed for students who are interested in learning the fundamentals needed to create and modify basic presentations using Microsoft® Office PowerPoint® 2007. This course is also intended for students interested in pursuing Microsoft Office Specialist certification in Microsoft® Office PowerPoint® 2007.

Prerequisites: To ensure your success, we recommend you first take one of the following Element K courses or have equivalent knowledge:

- Windows XP or 2000: Introduction
- Windows XP Professional: Level 1 & Level 2

Delivery Method: Instructor led, group-paced, classroom-delivery learning model with structured hands-on activities.

Certification

This course is one of a series of Element K courseware titles that addresses Microsoft Office Specialist (Office Specialist) skill sets. The Office Specialist program is for individuals who use Microsoft's business desktop software and who seek recognition for their expertise with specific Microsoft products. Certification candidates must pass one or more proficiency exams in order to earn Office Specialist certification.
